Kollmorgen ServoStar Initialization Procedure

STOP!!!

Your replacement drive will fit a variety of applications and must be configured to your specific use before installation. Follow the step by step instructions below.

BACK UP PARAMETERS FIRST

1. Connect amplifier with serial cable to PC and open Kollmorgen Motionlink program
2. Open terminal windows and issue CLREEPROM command
3. Reboot the drive and open Motionlink
4. Reload parameters to new drive and save.
5. Reboot the drive
6. Drive should be ready to operate.
